

Sodashi Recycling Program

'SODASHI CYCLE'

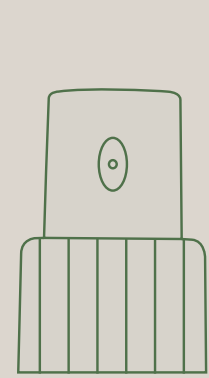

Sodashi is committed to doing business responsibly, striving for cleaner and greener ways of manufacturing. Unfortunately, many beauty products in our industry aren't recyclable via kerbside collection. The solution? In 2023, Sodashi launched a recycling program called 'Sodashi Cycle', collaborating with a selection of WA based spas.

These spa partners will carry a Zero Waste Box™ purchased from recycling specialists, TerraCycle®, who do the hard yards of dismantling, sorting and recycling products.

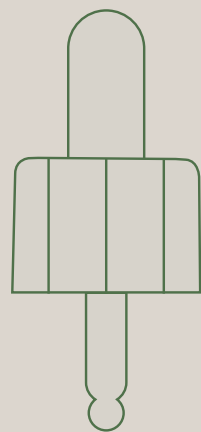

How does this impact you? Help us do better for the environment by bringing your empty Sodashi product packaging into these collection points so we can recycle them properly. We also offer an option to return empty packaging via our e-return parcel portal.

TERRACYCLE: ACCEPTED MATERIALS

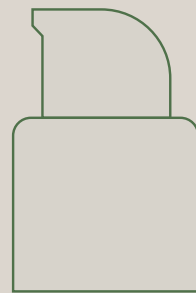

Much of our product packaging is kerbside recyclable. However, like other beauty products, they can be made of components too complex for local recycling machines. Discover what components can be collected by TerraCycle® in their Zero Waste Boxes™.

SODASHI CYCLE

Summary

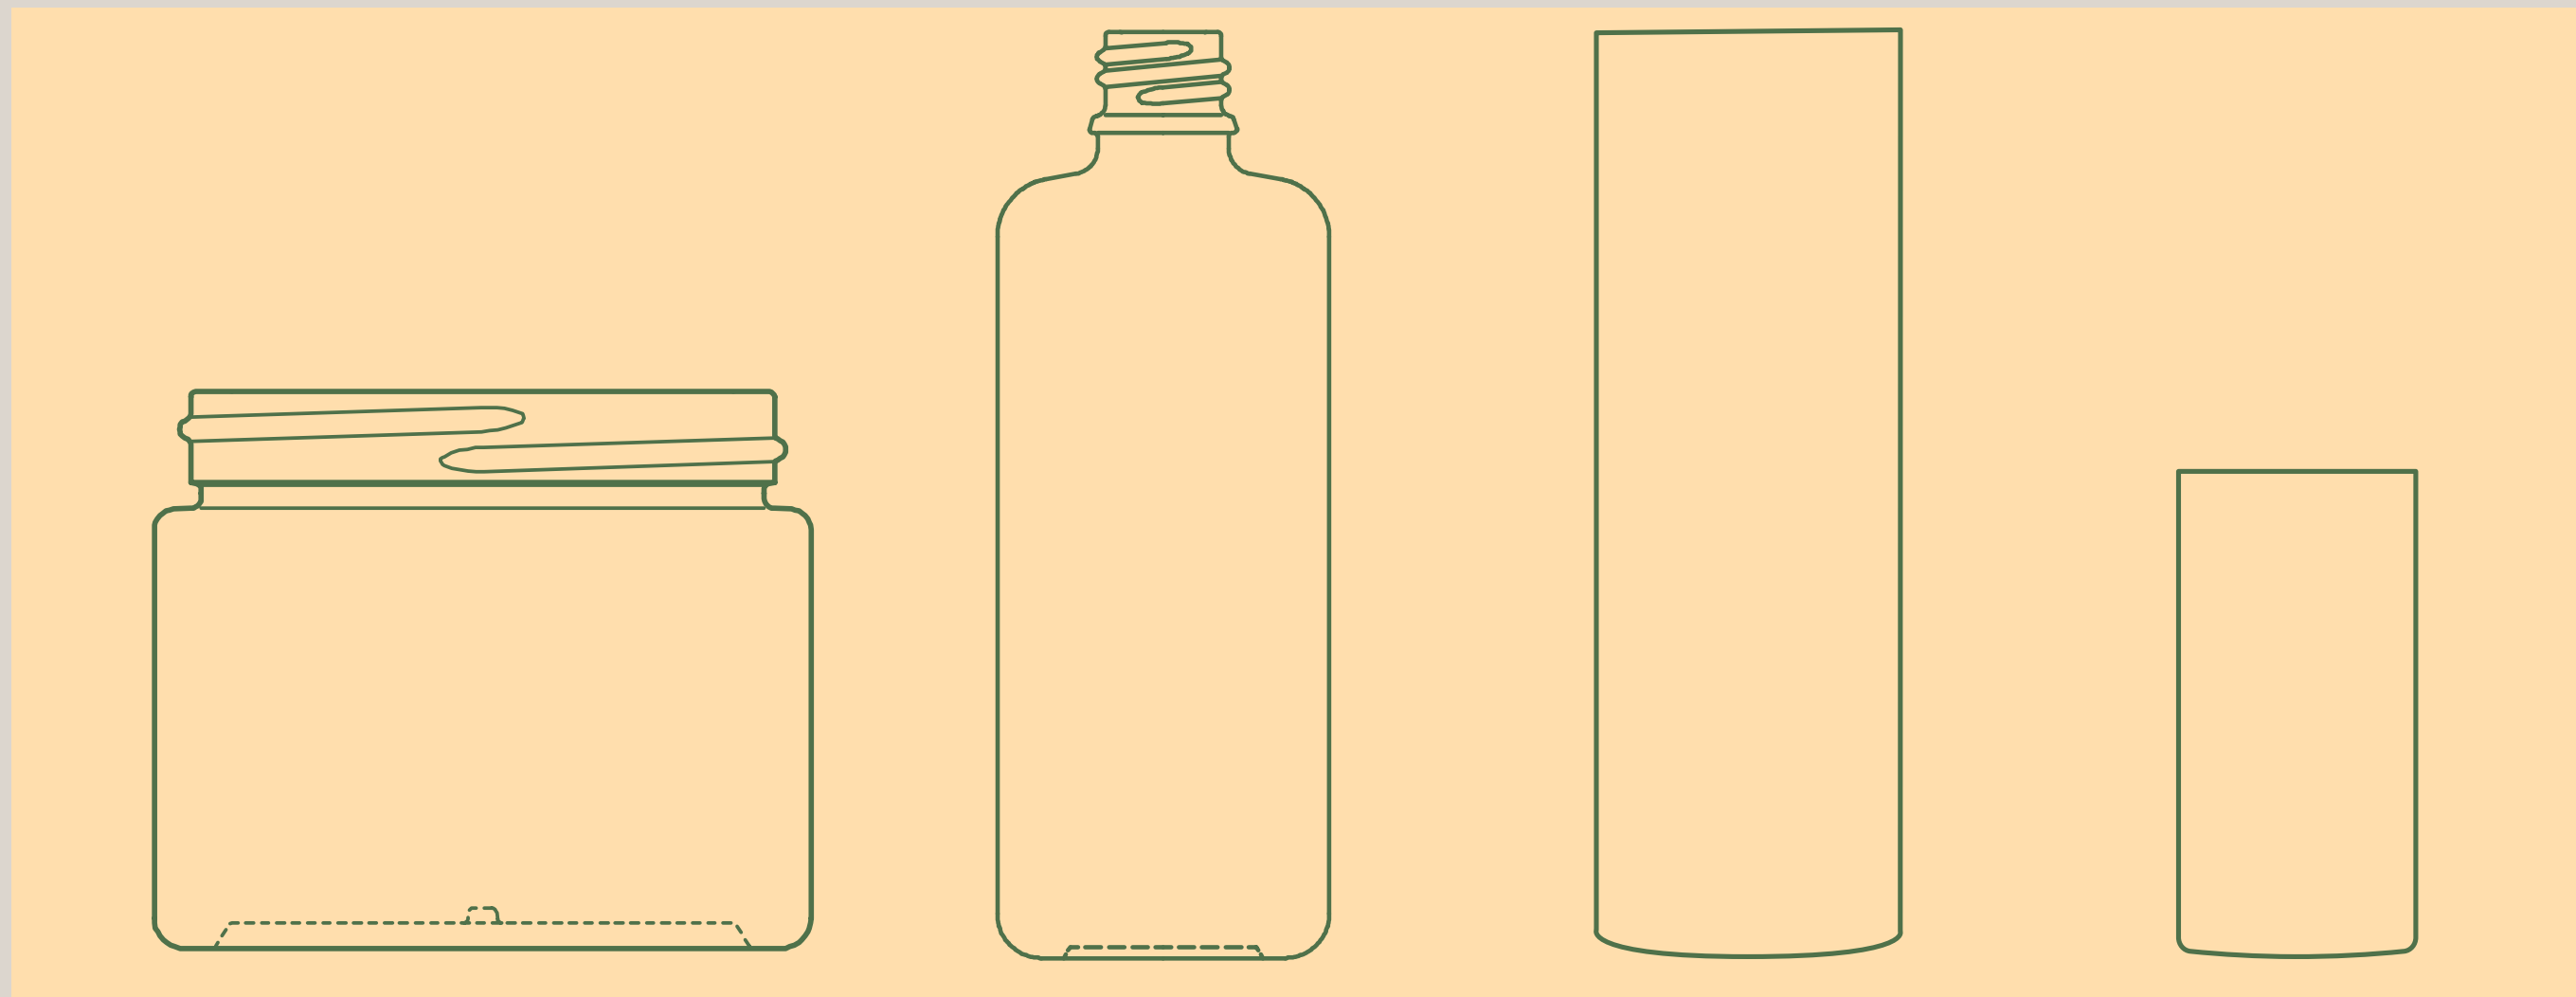

We strive to do our best to ensure our products have a sustainable end of life. Though we understand that the recycling process can become overwhelming. If you find yourself in this boat, please refer to our summary for what to recycle and what to put in the Zero Waste Boxes™.

SODASHI CYCLE: SUMMARY

- 1 TERRACYCLE ZERO WASTE BOXES
- 2 Lids, liners, droppers, spray caps, pumps.

*Ensure that items are clean and dry. To reduce our carbon footprint, we recommend collecting **4-6 empty products** before TerraCycling.

- 3 ALSO ACCEPTED BY KERBSIDE RECYCLING
- Miron jars, Miron bottles, plastic bottles, deluxe minis.
